Appendix A – District Name and Number Table

Revised: October 21, 2025

Number	District Name
01	Alachua
02	Baker
03	Bay
04	Bradford
05	Brevard
06	Broward
07	Calhoun
08	Charlotte
09	Citrus
10	Clay
11	Collier
12	Columbia
13	Dade
14	DeSoto
15	Dixie
16	Duval
17	Escambia
18	Flagler
19	Franklin
20	Gadsden
21	Gilchrist
22	Glades
23	Gulf
24	Hamilton
25	Hardee
26	Hendry

27	Hernando
28	Highlands
29	Hillsborough
30	Holmes
31	Indian River
32	Jackson
33	Jefferson
34	Lafayette
35	Lake
36	Lee
37	Leon
38	Levy
39	Liberty
40	Madison
41	Manatee
42	Marion
43	Martin
44	Monroe
45	Nassau
46	Okaloosa
47	Okeechobee
48	Orange
49	Osceola
50	Palm Beach
51	Pasco
52	Pinellas
53	Polk
54	Putnam

55	St. Johns
56	St. Lucie
57	Santa Rosa
58	Sarasota
59	Seminole
60	Sumter
61	Suwannee
62	Taylor
63	Union
64	Volusia
65	Wakulla
66	Walton
67	Washington
68	School for Deaf/Blind
69	Dozier/Okeechobee (valid prior to 2025-26)
70	Eckerd Challenge Program (valid prior to 1994-94)
71	Florida Online High School
72	FAU – Lab School
73	FSU – Lab School
74	FAMU – Lab School
75	UF – Lab School
76	C.E.S.A. Correctional Educational School Authority
80	IDEA Public Schools
81	TSC
82	FSU BAY
83	DJJ District
89	Teacher Certification Office
90	Florida Institute for Education

95 *	Bright Futures Practice or Production, Early or Summer
99 **	Other than Florida Public School

* NOTE: The campus number is used to specify the graduation year, production, and the evaluation semester. See the definition for [I/S00 Header Record, Addressed Institution](#) for details.

** NOTE: When 99(0000) is used as an Institution ID on a Header Record, this indicates the sender (or the addressee) is a non-FASTER PK-12 institution. The unique identifier for this institution can then be found in the SPEEDE/ExPRESS Institution ID field on the same Header Record. When 99(0006) is used it represents the MSIX Federal Migrant Program.

Appendix B – Accessing Code Files Available at Northwest Regional Data Center

Effective: August 1, 2015

Revised: October 21, 2025

For your convenience, the code tables listed in this appendix are maintained at the Northwest Regional Data Center (NWRDC) by either OADS or the Office of Education Information & Accountability Services (EIAS). When the dataset name for the file contains the letters 'Yyear' replace the 'year' with the current school year. For example, in item 1 below, DPS.DISTRICT.G4.F25031.Y0910 would be the 2009-2010 file while DPS.DISTRICT.G4.F25031.Y1011 would contain data for 2010-2011.

These DOE datasets can be downloaded from datasets stored at NWRDC. Alternatively, files may be downloaded from the district or postsecondary institution's TIBCO FS_OUT folder. The files are available upon request.

1. **Master School ID (MSID) File, Course File, Vocational Course File and Private Schools File**

The Office of Education Information & Accountability Services' (EIAS) Master School ID (MSID) File contains names, numbers, and other useful information on Florida PK-12 public schools. A sequential copy of this file has been made available as dataset DPS.DISTRICT.G4.F25031.Yyear. Note that the unique identifier for a school consists of two fields: District Number and School Number. Thus, the unique identifier for a school is 6 characters in length. The MSID file format can be found in DPS.DISTRICT.FORMAT.Y1011(F25031).

Private School Numbers can be found on the sequential file DPS.DISTRICT.GH.F70119.Yyear. Like the Public School MSID file, the unique identifier consists of the two fields District Number and School Number. The format for this file can be found in DPS.DISTRICT.FORMAT.Y1011(F70119).

Other available files are:

- the Course file - DPS.DISTRICT.K9.F62806.Y9999 (where 9999 is the four-digit school year); and
- the Vocational Courses file - DPS.DISTRICT.GQ.F60922.Y9999.

2. **U.S. State Codes**

A table of state codes is stored at NWRDC as a dataset named FRN.DISTRICT.STATE. This file has a record length of 80 characters and can be downloaded as explained at the top of this page. State codes are 2-byte fields that begin in column 1. State names are stored in 20-byte fields beginning in column 6.

3. **Foreign Country and U.S. Territory Codes**

A table of foreign country codes, for fiscal years 95-96 to current, is stored at NWRDC as a dataset named DPS.DISTRICT.COUNTRY.Yyear. These codes are used in the interdistrict and secondary to postsecondary record formats. This file has a record length of 80 characters and can be downloaded as stated above. The format for this file is a 3-byte filler, followed by a 4-digit year (0910) beginning in position 4, followed by a 2-byte country code that begins in position 8. The country name is a 20-byte field beginning in position 10.

A table of foreign country codes, for fiscal years 01-02 to current, is stored at NWRDC as a dataset named DPS.DISTRICT.COUNTRY.CODES.Yyear. These codes are used in the interdistrict and secondary to postsecondary record formats. This file has a record length of 80 characters and can be downloaded as stated above. The format for this file is the same as DPS.DISTRICT.COUNTRY.Y0910 above.

A table of U.S. Territory codes, for fiscal years 01-02 to current, is stored at NWRDC as a dataset named DPS.DISTRICT.TERRITRY.Yyear. These codes are used in the interdistrict and secondary to postsecondary

record formats. This file has a record length of 80 characters and can be downloaded as stated above. The format for this file is the same as DPS.DISTRICT.COUNTRY.Y0910 above.

4. **Code List for Florida Postsecondary Public and Non-Public Institutions**

The dataset [FRN.DISTRICT.POSTSEC](#) is obsolete and no longer available. The list of codes for public and non-public postsecondary institutions can now be found in [Appendix F](#) and/or [Appendix K](#) of the EIAS Student Data Base Manual.

5. **International Standards Organization (ISO) Country Codes**

A list of country codes used in the postsecondary transcript formats is available on [ISO Country Codes](#).

6. **Postsecondary Campus Codes**

A table of campus codes used in referring to Florida postsecondary public institutions is stored at NWRDC as a dataset named [FRN.DISTRICT.CAMPUS](#). Like the state code datasets above, this file has a record length of 80 characters and can be downloaded in the same way. Columns 1 through 6 contain the institution's OPEID Code followed by a 4-byte Campus Code in columns 7 through 10. The institution name is a 35-character field in columns 11 through 45. The campus name is also a 35-character field in columns 46 through 80. Codes are numeric, right-justified and zero-filled while names are left-justified, blank filled and in upper/lower case.

7. **International Standards Organization (ISO) Language Codes**

A list of language codes used in the postsecondary transcript formats is available on [ISO Language Codes](#).

8. **International Classification of Diseases (ICD) Codes**

A list of ICD codes is available in the [Header and Generic Record Formats](#) (see Attachment 1).

9. **Physician's Current Procedural Terminology (CPT) Codes**

A list of CPT codes is available in the [Header and Generic Record Formats](#) (see Attachment 2).

10. **SPEEDE/ExPRESS Academic Grade Qualifier Codes**

The SPEEDE/ExPRESS Academic Grade Qualifier Codes are a superset of the codes used by the Association of American Medical Colleges Application Service (AAMCAS), which are available in the [Postsecondary Record Format](#) (see Attachment 1).

11. **High School Educational Testing Service (ETS) Codes**

The Educational Testing Service identifies high schools using a 6-byte (ETS) code. This number is also known as the College Entrance Examination Board (CEEB) code. The number for public high schools can be found on the Master School ID file as listed in Item 1 above.

12. **Office of Postsecondary Education Codes**

To determine the OPEID Numbers for both accredited and non-accredited institutions, visit the [National Center for Education Statistics](#) Web site.

13. **Migrant State Codes**

A table of codes for states (within the United States, Mexico, and Canada), is available in the Student Information System Database Manual, [Appendix BB](#).

Appendix C – State College and University OPEID and Campus Codes

Revised: October 21, 2025

OPEID	State Community College	Campus Number	Campus Name
001470	Eastern Florida State College	0001	Cocoa
001470	Eastern Florida State College	0002	Melbourne
001470	Eastern Florida State College	0003	Titusville
001470	Eastern Florida State College	0005	Palm Bay Center
001500	Broward College	0010	Central

Inst Code	Other FASTER Entity	Campus Number
000701	Other University Entities	0000
000800	Division of Florida Colleges	0000
000801	Other Florida College System Entities	0000
010002	Non-FASTER Postsecondary Institutions participating in SPEEDE and/or ExPRESS *	0000
010003	NCAA Clearing House***	0000
010004	Florida Collegiate Admissions Application**	0000

Note: This code list is available as a flat file. Refer to Appendix B for more details.

* When 010002 is used as an Institution ID on a Header Record, this indicates the sender (or addressee) is a non-FASTER postsecondary institution. The unique identifier for this institution can then be found in the SPEEDE/ExPRESS Institution ID field on the same Header Record.

** 010004 is only valid as a Sending Institution ID.

*** 010003 is valid only for printing transcripts. It is NOT a valid Sending Institution ID.

Appendix D – Header Record Message Type Codes

Revised: April 10, 2018

The Message Type element on the Header Record format can take one of the following formats:

- R99 - Electronic Request.
- B99 - Record rejected by Bright Futures - resend requested.
- S99 - Response to an electronic request.
- Q99 - Unsolicited response.
- M99 - MSIX Migrant response from United States Department of Education.

Request Codes	Message Description
R01 *	Please send this record as soon as possible.
R02 *	Please send this record as soon as the current term is complete and grades are posted.
R03	Please send this record after the degree has been posted (applies only to postsecondary requests).
R04	Please send the vocational course record only (applies only to postsecondary requests).
R05	Please send the secondary record only if a diploma has been awarded.
R06 *	Please send electronically, and also send any associated hard copy information. If the transcript is not stored in automated form, please send it as hard copy.
R07 *	We are requesting student records from your inactive files so a hard copy response will be acceptable unless you can send it electronically. This message should only be used when an institution or school district is requesting a student record for an inactive student who graduated or left school and whose records are no longer in active automated files and therefore cannot be transmitted electronically.
R08	Send header record only, all else by mail.
R09	Send transcript to both the requesting institution and to the DOE Teacher Certification Office.
R10	Temporary Placement, send Header Record Only (for use with detention centers and similar facilities).
R11	Requested record to be used for employment purposes.
R12	We have received your electronic transmission. We are still waiting for the ESE and other non-automated data.
R20	Please send a Cost of Attendance record as soon as possible. (Applies only to postsecondary requests.) (Effective July 1, 2012)
R30	Please send an Enrollment record as soon as possible. (Applies only to postsecondary requests.) (Effective July 1, 2012)
R95	At your convenience, please send this student's transcript to Bright Futures production evaluation system at some point during this school year.
R96	Please send this student's transcript to the State Student Financial Aid Database as soon as possible.
B00	The record sent to the Bright Futures Office was rejected due to an unexpected system failure. Resend or contact the Bright Futures Office.

B01	The record sent to the Bright Futures Office was rejected because the student exists in the Bright Futures Initial Eligibility database under a different year in production. Either correct the data and resend or contact the Bright Futures Office.
B02	The record sent to the Bright Futures Office was rejected because the student's SSN (or Local Student ID if no SSN was provided) already exists in the Bright Futures database in a different district or it exists on the State Student Financial Aid database. Either correct the data and resend or contact the Bright Futures Office.
B03	Warning: The record sent to the Bright Futures Office was addressed to the Practice database though the student is currently in Production. The transcript successfully updated the student's records, which continue to be in the Production database. If you think the student should not be in Production, contact the Bright Futures Office as soon as possible to prevent locking and the generation of a letter to the student based on their current eligibility status.
B04	The record sent to the Bright Futures Office was rejected because the student already exists in the Bright Futures Production database and the time limit for updating the student's record has expired. Contact the Bright Futures Office to have the edit capability extended.
B05	The record sent to the Bright Futures Office was rejected because the student must be at least ten years old. Either correct the data and resend or contact the Bright Futures Office.
B06	The record sent to the Bright Futures Office was rejected because the public/private school was not a valid school for Bright Futures. Either correct the data and resend or contact the Bright Futures Office.
B07	The student is already in Bright Futures production, do not also send as Top Twenty.
B08	The record sent to the Bright Futures Office was rejected because the student has changed his or her SSN. Please update your files and re-send.
B09	The record sent to the Bright Futures Office was rejected because the student was previously submitted under a different Id. For example, you first sent this student in with his(her) local student_number_identifier. You now are sending this student with their SSN without including their student_number_identifier. Contact OSFA.
B10	Student cannot be posted to production because (s)he has no universal application on file with SSFAD - State Student Financial Aid Database.
B11	Student has a universal application on file with the State Student Financial Aid Database but is ineligible for consideration for Bright Futures.
B12	Early Admit Top 20 addressed to dist 95, msg code Q20, with eval semester = 0. Must be coded with the year in which the student will graduate.
B13	Course record count > 199; Check Course Credits.
B15	FASTER transcript to prod not accepted before Dec 15 (May 15).
B16	Record rejected because another student with a different first name and/or DOB is already using this Student ID. Either correct the data and resend or contact the Bright Futures Office.
B17	Record rejected because this student is in our system more than once with different identifiers. Contact the Bright Futures Office.
B18	Record rejected because ALIAS HS ID is correct but SSN belongs to another student. After Verifying SSN, contact OSFA.

B19	The record sent to the Bright Futures Office was rejected because the student exists in the Bright Futures Initial Eligibility database under a different year in a private school. Either correct the data and resend or contact the Bright Futures Office.
B20	The student was submitted with no course records.
B21	FASTER transcript is older than the previous and current school years. Contact the Bright Futures Office.
B22	Student transcript already exists at a private high school. Contact the Bright Futures Office.
B23	Student transcript was addressed to the wrong mailbox. Contact the Bright Futures Office.
B28	Student Transcript addressed to 7th semester after 7th closed; please re-send student transcript to 8th semester.
B30	Indicates that a duplicate record has been received. The latest record is retained.

* Responding to this request with a student record does not preclude sending any other required data (ESE, HRS, etc.) as hard copy.

Request Codes	Message Description
S01	The requested record is being sent (record follows).
S02	The requested record is not being sent because the student cannot be identified based on the information supplied.
S03	The requested record cannot be sent electronically. It will be mailed.
S04	The requested record will not be released at this time because of discrepancies. Please have the student contact us.
S05	The requested vocational portion of the student's record is being sent; the record follows (applies only to postsecondary responses).
S06	Student is tentatively identified, but some differences exist between our information and the identifying information that you sent; please refer to the second set of identifying information on the Header Record in resolving these discrepancies.
S07	We are sending what we can electronically; the balance is being sent by mail.
S08	We are sending hard copy only, as requested.
S09	We are sending electronically, and hard copy also.
S10	This student is not in our records.
S11	Student has not yet graduated. Transcript will not be sent.
S12	Sending a Header Record only, as requested.
S13	Record being sent for employment purposes.

S14	Record being sent to both the requesting institution and to the DOE Teacher Certification Office.
S15	Please wait thirty days and resubmit.
S16	Please wait ten days and resubmit.
S17	Do not resubmit; we will hold your request and respond again shortly.
S18	The requested record will not be released at this time because the student has a hold on their record. (Applies only to postsecondary responses.) (Effective July 1, 2012)
S20	The requested Cost of Attendance record is being sent (record follows). (Applies only to postsecondary responses.) (Effective July 1, 2012)
S21	The requested Cost of Attendance record is not being sent because the student cannot be identified based on the information supplied. (Applies only to postsecondary responses.) (Effective July 1, 2012)
S22	The requested Cost of Attendance record is not being sent because the student is not currently registered. (Applies only to postsecondary responses.) (Effective July 1, 2012)
S30	The requested Enrollment record is being sent (record follows). (Applies only to postsecondary responses.) (Effective July 1, 2012)
S31	The requested Enrollment record is not being sent because the student cannot be identified based on the information supplied. (Applies only to postsecondary responses.) (Effective July 1, 2012)
S32	The requested Enrollment record is not being sent because the student is not currently registered. (Applies only to postsecondary responses.) (Effective July 1, 2012)
Q01	This record is being sent to you at the student's request.
Q02	This record is being sent to replace a record previously sent.
Q03	This transcript is being sent due to a joint program, articulated agreement, or similar arrangement.
Q04	Record represents postsecondary feedback data.
Q05	SPEEDE/ExPRESS response indicating that a transcript was solicited, but the original FASTER request is not identifiable.
Q13	This record is being sent at the request of the student for employment purposes.
Q14	This record is being sent to both the DOE Teacher Certification Office and to the institution specified by the student.
Q20	This record is being sent to Talented Twenty.
X01	This response record is being sent to indicate that the sending institution attempted to transmit a student record but was unsuccessful due to one or more reject errors.

Request Codes	Message Description
M01	The student is new to the MSIX system. He/she has been enrolled in the migrant student program for the first time. The response header record from MSIX will contain the MSIX ID assigned to the student.
M02	The student transcript has matched an existing student in the MSIX system. The response header record from MSIX will contain the MSIX ID previously assigned to the student.
M03	The MSIX system has changed the student's MSIX ID. Two student records which were originally matched and assigned the same MSIX ID due to similar demographics have been identified as two different students. Your district MEP office has executed a 'User Initiated' split using the MSIX Website. Therefore, these records have been SPLIT to assign a separate MSIX ID to one of the students. Your district will receive a response header record containing the newly assigned MSIX ID number.
M04	Two student records in the MSIX system have been identified as the same student. Your district MEP office has merged these student records together using the MSIX Website to associate them with the same MSIX ID. Your district will receive a response header record containing the newly assigned MSIX ID number.
M05	The student transcript sent to the MSIX system partially matched with an existing student in the MSIX system. To notify your district of this 'Near Match' situation, you will receive a response header record containing the 'M05' Message Type but the header will not contain a MSIX ID. No MSIX ID has been assigned the student at this point. Your district MEP should be notified to resolve this 'Near Match' using the MSIX Website. You will receive a header response record for this student containing a MSIX ID once the 'Near Match' has been resolved.
M06	The student has been 'Deactivated' in the MSIX system and is no longer serviced by the Migrant Education Program. Your district must 'mark' this student as inactive and should no longer send the student's transcript to the MSIX system.
M07	The MSIX system has rejected the student's transcript record. Please contact your district MEP Coordinator.
