REJECT RULES

UPDATED 07/01/2026

1.

District Number, Current Enrollment must be numeric and active (A) on the Appendix C: District Name Table and must be correct for the district submitting the data.

Record rejected

EXAMPLE

If district 01 is submitting records; District Number, Current Enrollment must be 01 for all records. Of the records listed below, the first two records would be loaded to the database assuming no other reject rule would cause their rejection. The third record would be rejected since the District Number, Current Enrollment is 02 rather than 01 (the district submitting the record).

District Number, Current Enrollment	School Number, Current Enrollment	Florida Education Identifier
01	0151	FL123456789100
01	0151	FL123456789200
*02	0151	FL123456789300

DISTRICT RESPONSIBILITY

If the rejected record should not have been submitted, no action is required. However, if the district wishes the data in the rejected record to be loaded to the database, the district must correct District Number, Current Enrollment and resubmit the record.

REJECT RULES

2.

If Survey Period Code is 1-4 or 5, School Number, Current Enrollment must be numeric in the range 0001 to 9899, excluding 9001 and 7006, or it must be N998 or N999.

Record rejected

EXAMPLE

The first two records listed below would be loaded to the database assuming no other reject rule would cause their rejection. The second two records would be rejected. The first of these would be rejected because the School Number, Current Enrollment is not in the appropriate numerical range. The second of these two records would be rejected because the School Number, Current Enrollment is not an acceptable code.

District Number, Current Enrollment	School Number, Current Enrollment	Florida Education Identifier
01	0151	FL123456789100
01	0151	FL123456789200
*01	9999	FL123456789300
*01	C901	FL123456789000

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct School Number, Current Enrollment and resubmit the records.

4.

Survey Period Code must be 1, 2, 3, 4 or 5 and must be correct for the submission specified by the district.

Record rejected

EXAMPLE

The Survey Period Code as specified in the transmission JCL or in the statements for tape transmission is identified as Survey Period Code "2" and records are coded with Survey Period Code "1". All updates, adds, or deletes with this inconsistency would be rejected.

DISTRICT RESPONSIBILITY

The district must correct the Survey Period Code either on the records coming in or the transmission JCL, and all records should be resubmitted.

EXCEPTIONAL STUDENT

REJECT RULES

5.

Year must be correct for the submission specified by the district.

Note: For Survey Periods 1-4, Year is Fiscal Year. For Survey Period 5, Year is School Year.

Record rejected

EXAMPLE

The Year as specified in the transmission JCL or in the statements for tape transmission is identified as the valid year for data submission, but records being submitted have the previous year coded. All updates, adds, or deletes with this inconsistency would be rejected.

DISTRICT RESPONSIBILITY

The district must correct the Year either on the JCL or the records being submitted and resubmit all records for processing.

EXCEPTIONAL STUDENT

REJECT RULES

6.

The Transaction Code must be A, C or D. For the original transmission, only A is valid. For subsequent batch/update submissions, if A is specified the record must not already exist on the database; if C or D is specified then the record must exist on the database.

Record rejected

EXAMPLE

For all original transmissions, the Transaction Code must be "A". An original transaction is the first submission of a record during a survey period. After the original transmission of records, changes to the record for elements other than the key elements must be done with a "C" as the Transaction Code. To delete a record, the Transaction Code must be a "D". To change key elements in a batch transaction, the record must FIRST be deleted with a "D" and then added with an "A". Records with an incorrect Transaction Code would be rejected.

DISTRICT RESPONSIBILITY

If the rejected records should not have been submitted, no action is required. However, if the district wishes the data in the rejected records to be loaded to the database, the district must correct the Transaction Code and resubmit the records.
