

6A-6.0251 Use of Epinephrine Delivery Device ~~Auto-Injectors~~ and Anaphylaxis Policy.

(1) Definitions.

(a) No change.

(b) Epinephrine Delivery Device ~~Auto-injector~~. Epinephrine delivery device means a mechanism that is approved by the United States Food and Drug Administration that contains ~~auto-injector~~ is a prescription medication (epinephrine) in a premeasured, weight-based dose specific dose-for-weight device that is used to administer epinephrine to prevent or treat ~~packaged for self-delivery in the event of~~ a life-threatening allergic reaction.

(c) through (d) No change.

(e) Self-Administration. Self-administration shall mean that the student is able to utilize the epinephrine delivery device ~~auto-injector~~ in the manner directed by the licensed healthcare provider without additional assistance or direction.

(2) Use of Epinephrine Delivery Device ~~Auto-Injectors~~ and Individualized Healthcare Plan (IHP)

(a) A written authorization is required from the physician and parent/guardians for a student to carry an epinephrine delivery device ~~auto-injector~~ and self-administer epinephrine by such delivery device ~~auto-injector~~ in accordance with Section 1002.20, F.S.

(b) No change.

(3) The IHP shall include provisions for child-specific training in accordance with Section 1006.062(4), F.S., to ensure personnel are prepared to support a student's unique needs, respond appropriately, and protect the safety of all students from the misuse or abuse of such delivery devices ~~auto-injectors~~. The EAP component shall specify that the emergency number (911) will be called immediately for an anaphylaxis event and describe a plan of action if the student is unable to perform self-administration of the epinephrine delivery device ~~auto-injector~~.

(4) through (5) No change.
