Section 1. Background

During the 2021 legislative session, House Bill (HB) 233 amended sections (s.) 1001.03 and 1001.706, Florida Statutes (F.S.), to define the terms “intellectual freedom and viewpoint diversity” and “shield.” The bill also added a requirement for Florida College System (FCS) and State University System (SUS) institutions to conduct an annual assessment of intellectual freedom and viewpoint diversity.

Specifically, s. 1001.03(19), F.S., provides for the following:

The State Board of Education shall require each Florida College System institution to conduct an annual assessment of the intellectual freedom and viewpoint diversity at that institution. The State Board of Education shall select or create an objective, nonpartisan, and statistically valid survey to be used by each institution which considers the extent to which competing ideas and perspectives are presented and members of the college community, including students, faculty, and staff, feel free to express their beliefs and viewpoints on campus and in the classroom. The State Board of Education shall annually compile and publish the assessments by September 1 of each year, beginning on September 1, 2022. The State Board of Education may adopt rules to implement this paragraph.

To implement the provisions of s. 1001.03(19), F.S., two surveys in 2022 were developed. The first survey was a 21-question multiple choice instrument whose audience was students. The second survey was a 24-question multiple choice instrument whose audience was employees. The two surveys were identical for the SUS and FCS.

In 2023, two survey instruments were designed to assess the extent to which students and employees feel free to express their beliefs and viewpoints on campus. The first survey was a 53-question multiple choice instrument whose audience was students. The second survey was a 46-question multiple choice instrument whose audience was employees. The two surveys were identical for the SUS and FCS.

In this summary, the 2023 intellectual freedom and viewpoint diversity assessments for the FCS have been compiled for publication.

Section 2. Methodology

The two survey instruments were designed to assess the extent to which students and employees feel free to express their beliefs and viewpoints on campus. For consistency and a more standardized approach, the Division of Florida Colleges requested that the 28 individual colleges, procure centralized services to disseminate the survey instruments to their student body and employee populations. The colleges used a survey platform provided by Alchemer to distribute and collect survey responses. Alchemer was also contracted to provide managed services to administer the full survey process including programming, testing, technical configuration, and user technical helpdesk support.

Each institution provided the vendor with the appropriate contact information for their student and staff populations. The student population was designated as all enrolled students after the Spring drop/add period. The staff population was defined as all active employees as of January 3, 2024.

Trends in current survey strategies suggest that for some populations, SMS message delivery can increase response rates. SMS messaging delivery of survey links were instituted for the student populations. Staff received only email delivery of the survey links.

To improve student response rates and provide more flexibility due to the differing university academic calendars, a 4-week survey period was originally scheduled. Due to the spring break rotation and other factors, the student survey was extended 1 week.

The survey was administered per the schedules listed in Tables 1 and 2.

Table 1: Student Survey

Pre-notification	March 14, 2024	The vendor sends pre-survey notifications by email.
Survey	March 18, 2024	*The vendor sends survey invitations to students via email and SMS messaging.
Reminders	March 25, April 1 st , April 8 th , April 15 th and April 19 th , 2024	The vendor sends survey reminders to students via email and SMS messaging.
Closing	April 19, 2024	The survey closes at 11:59 p.m. ET.

Table 2: Staff Survey

Pre-notification	April 19, 2024	The vendor sends pre-survey notifications, using university sub-domains, to Staff.
Survey	April 22, 2024	*The vendor sends survey invitations to Staff.
Reminders	April 29 and May 3, 2024	The vendor sends survey reminders to Staff.
Closing	May 3, 2024	The survey closes at 11:59 p.m. ET.

*Unique Survey one time use links were delivered to both students and staff.

Intellectual Freedom and Viewpoint Diversity 2024 Florida College System Summary

A vendor, ResponsiveMR (a subsidiary of Radius), was contracted to statistically weight the response data. Aggregate institutional student and staff demographics were provided to the vendor to perform the statistical weighting.

Weighting involves 3 basic steps:

1. Identify the Target Distribution. This was information provided to ResponsiveMR by the Division of Florida Colleges with information about employment and enrollment numbers for each university.
2. Identify the Sample Distribution. These numbers come directly from survey response data, detailing the number of respondents in each of our demographic categories that completed the survey.
3. Estimate the proportion by which each distribution is over/under-estimated in our Sample compared to the Target. This deviation provides information about the amount by which each demographic group must be weighted up/down in order for our Sample Distribution to match our Target Distribution.

Once these proportions are estimated and the weights calculated, we do two QA steps. First, we compared our Weighted Sample Distributions to our Target Distributions to ensure that they match. This is not always a perfect match, as our sample data always has some respondents who completed the survey but refused to answer one or more questions. Second, we inspect the weighting values to make sure that none are out of acceptable ranges. Acceptable ranges for weights are generally considered between 0.2 and 5. If any weights are outside this range, those values are calibrated back to within the acceptable range. This process can also create some minor deviations between our Weighted Sample and Target Distributions.

In total, 22,310 students and 5,868 employees in the FCS responded to the survey but only 10,266 students and 3,971 employees completed it. Only complete responses are used for weighting and only complete responses are used in the analysis of survey results.

Section 3. Student Responses

Table 3.1 shows student response rates by FCS institution. The most frequent methods of distribution were via student email (n = 10,569) and SMS (n = 11,741). Of the more than 405,666 individuals who received the student survey, 22,310 responded, representing a total response rate of 5.5%. By college, the minimum response rate was 2.4% and the maximum was 12.3%.

This section contains figures showing student responses to the 53-question survey instrument. Since respondents were able to skip questions, each figure is accompanied by a number of responses to that specific question.

Figure 3.1 shows student responses ($n = 10,266$) to the question, “Considering all of your time at your current college or university, have your courses been:” About 21% of students have coursework entirely online, and 16% have their coursework mostly online. About 21% of students indicated their coursework is mostly in-person, while 13% said their coursework is entirely in-person.

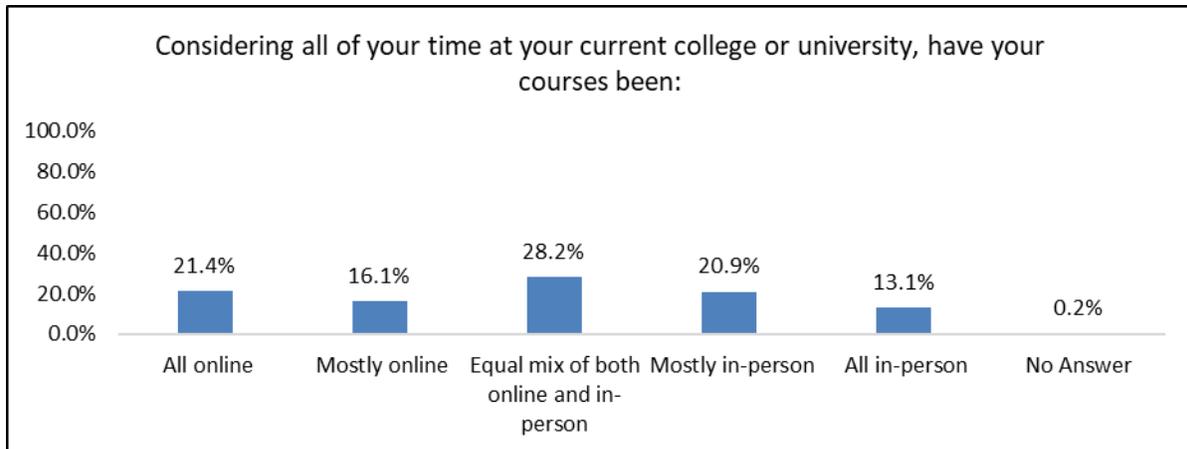

Figure 3.1. Question 1 Student Responses ($n = 10,266$)

Figure 3.2 shows student responses ($n = 10,266$) to the question, “I feel that it is important to be able to express my political viewpoints without fear of negative consequences.” In all, 92% of respondents agreed that it is important to be able to express political viewpoints without fear of negative consequences. 8% of respondents disagreed.

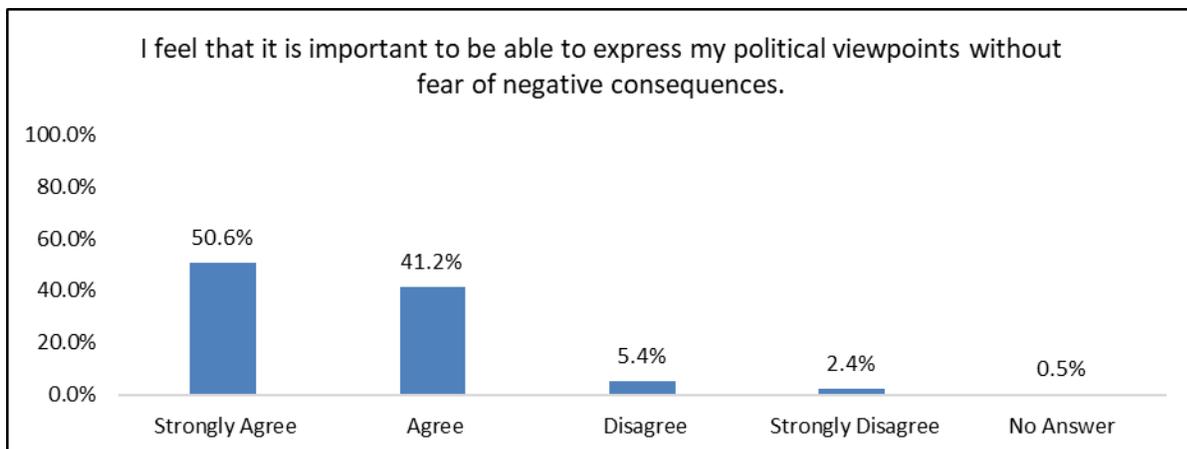

Figure 3.2. Question 2 Student Responses ($n = 10,266$)

Figure 3.3 shows student responses (n = 10,266) to the question, “If you had to choose, is it more important for colleges or universities:” 60.7% of respondents agreed that it is more important to expose students to all types of viewpoints, even if they are offensive or biased against certain groups. 1.3% of participants decided not to provide a response to this question.

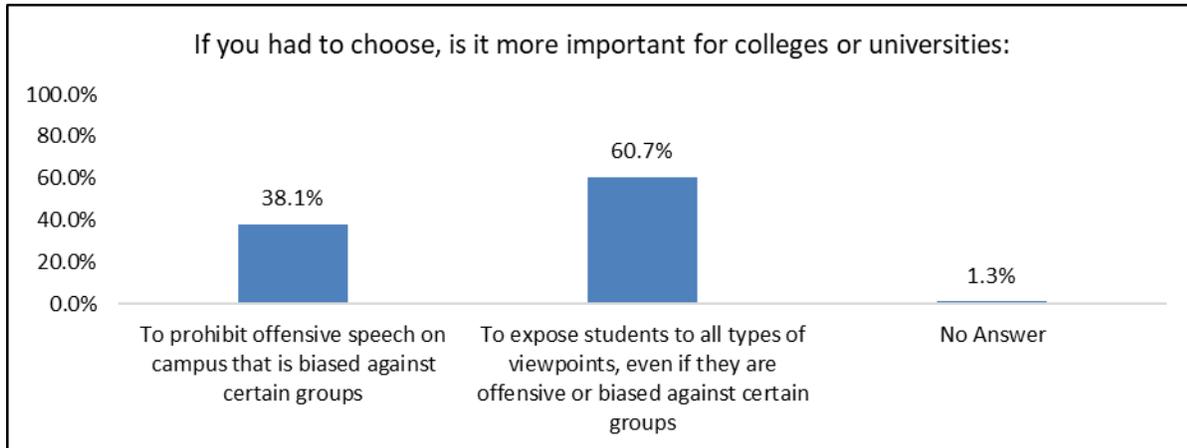

Figure 3.3. Question 3 Student Responses (n = 10,266)

Figure 3.4 shows student responses (n = 10,266) to the question, “Which of the following statements comes closer to your own personal opinion?” 91.9% of respondents agreed that it is important for a healthy campus life that the distinctions between speech and violence are maintained. There were 1.3% of participants who decided not to provide a response to this question.

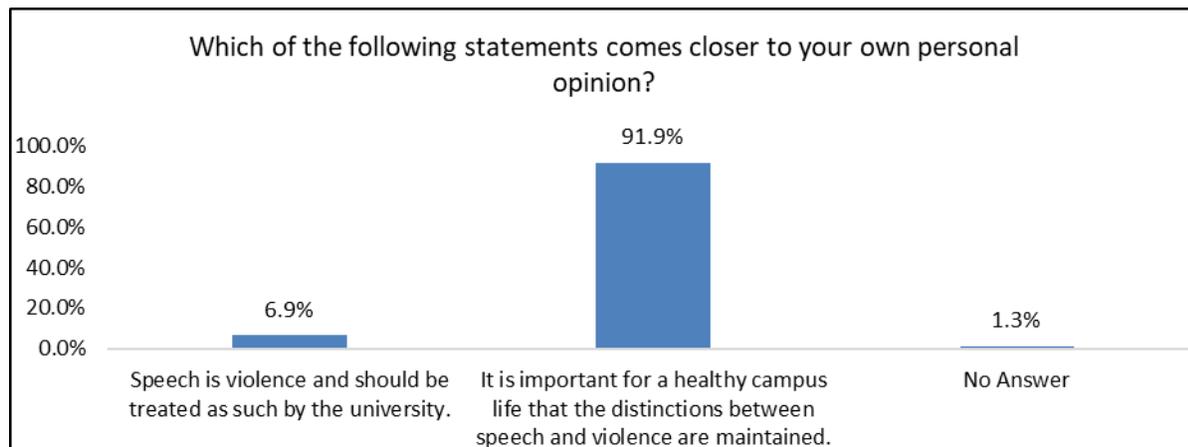

Figure 3.4. Question 4 Student Responses (n = 10,266)

Figure 3.5 shows student responses (n = 10,266) to the question, “Which of these two statements comes closer to your own opinion?” 32% agreed political correctness helps people avoid offending others. 66.2% agreed that political correctness has silenced important discussions our society needs to have. 1.7% of participants decided not to provide a response to this question.

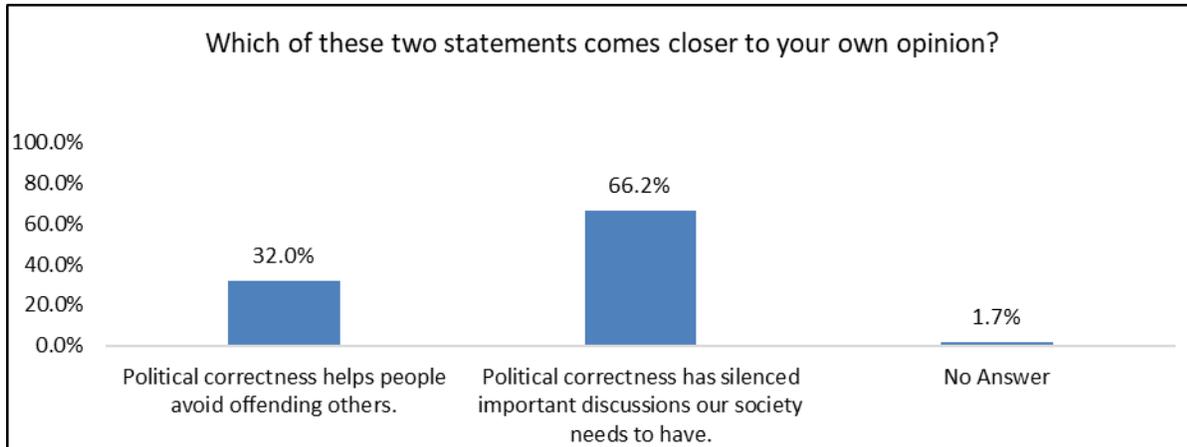

Figure 3.5. Question 5 Student Responses (n = 10,266)

Figure 3.6 shows student responses (n = 10,266) to the question, “My college or university campus provides an environment for free expression of ideas, opinions, and beliefs.” In all, about 83% of respondents agreed their campus provides an environment for free expression of ideas, opinions, and beliefs. 15% of respondents disagreed, indicating their campus does not provide an environment for free expression. 1.8% of respondents decided not to provide an answer to this question.

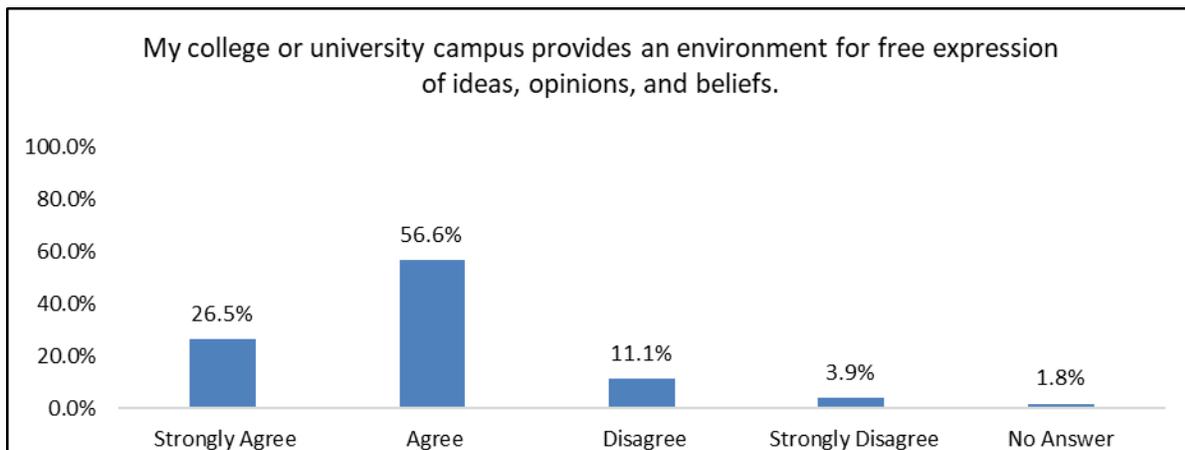

Figure 3.6. Question 6 Student Responses (n = 10,266)

Figure 3.7 shows student responses (n = 10,266) to the question, “I see examples of free and welcomed expression (such as speeches, debates with other students or instructors, class assignments, etc.) in my classes regularly.” Around 74.3% of respondents agreed they see examples of free and welcomed expression in classes regularly. About 24% of students disagreed that they see examples of free and welcomed expression in their classes, while 2.1% decided not to provide an answer.

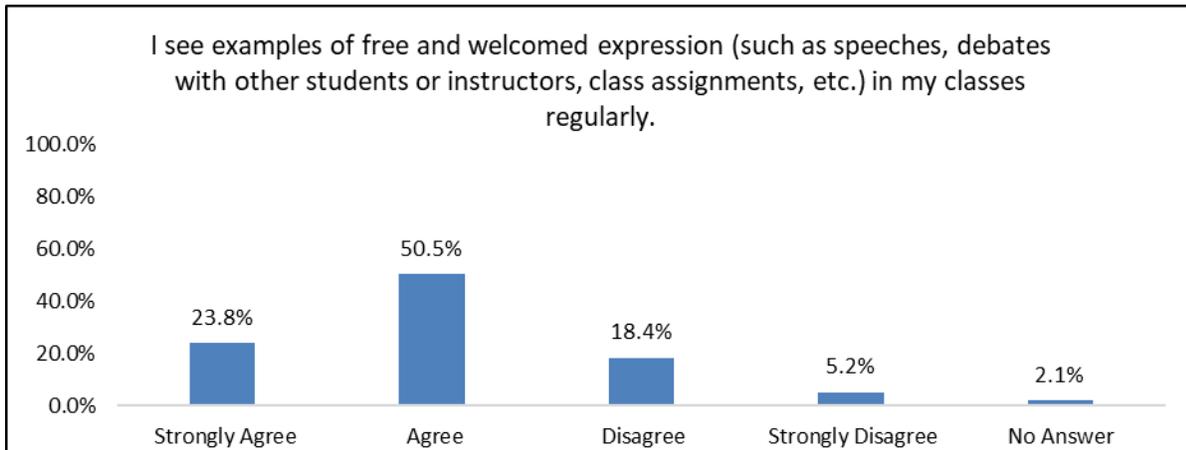

Figure 3.7. Question 7 Student Responses (n = 10,266)

Figure 3.8 shows student responses (n = 10,266) to the question, “My professors or course instructors use class time to express their own social or political beliefs without objectively discussing opposing social or political beliefs.” About 35% of respondents agree that their professors or course instructors use class time to express their own beliefs without objectively discussing opposing social or political beliefs, compared to about 63% of respondents who disagreed. 2.3% decided not to answer.

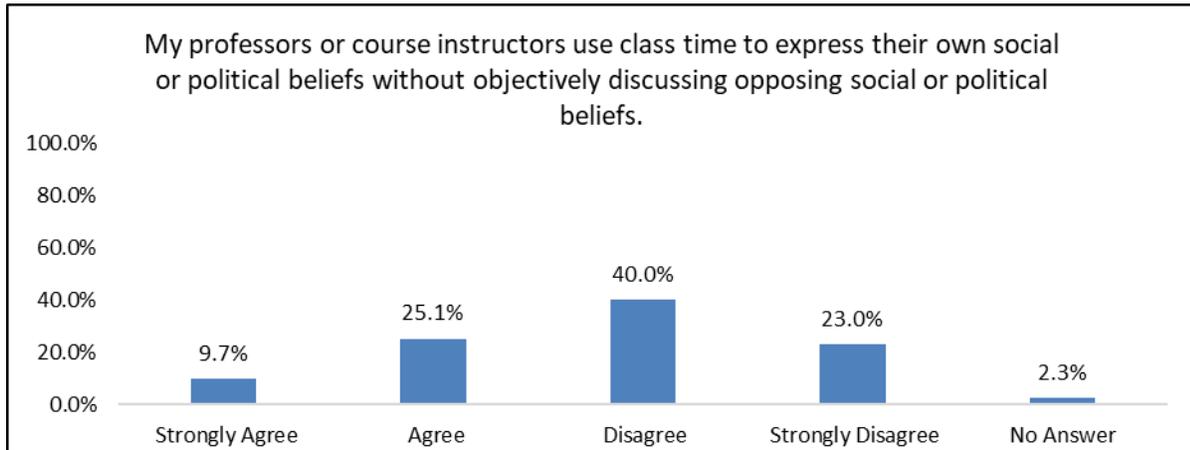

Figure 3.8. Question 8 Student Responses (n = 10,266)

Figure 3.9 shows student responses (n = 10,266) to the question, “If you agree, indicate the ideas and beliefs that are more prevalent.” About 18.8% of respondents indicated that liberal beliefs were more prevalent, while 9.8% indicated that conservative beliefs were more prevalent.

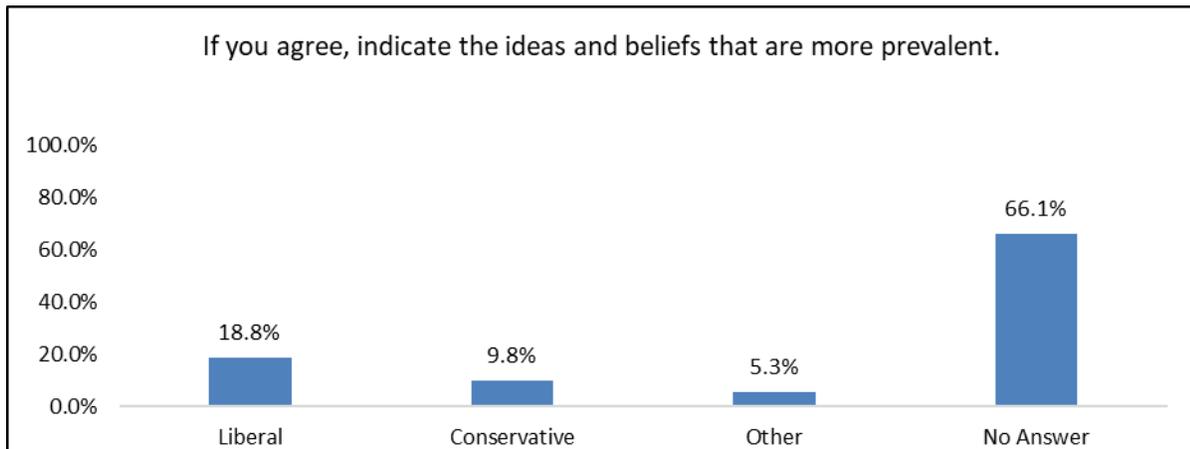

Figure 3.9. Question 9 Student Responses (n = 10,266)

Figure 3.10 shows student responses (n = 10,266) to the question, “Students at my college or university are encouraged to consider a wide variety of viewpoints and perspectives.” Around 79% of respondents agreed that they are encouraged to consider a wide variety of viewpoints and perspectives. About 18 % of students disagreed that they are encouraged to consider a wide variety of viewpoints and perspectives, and 2.4 decided not to answer.

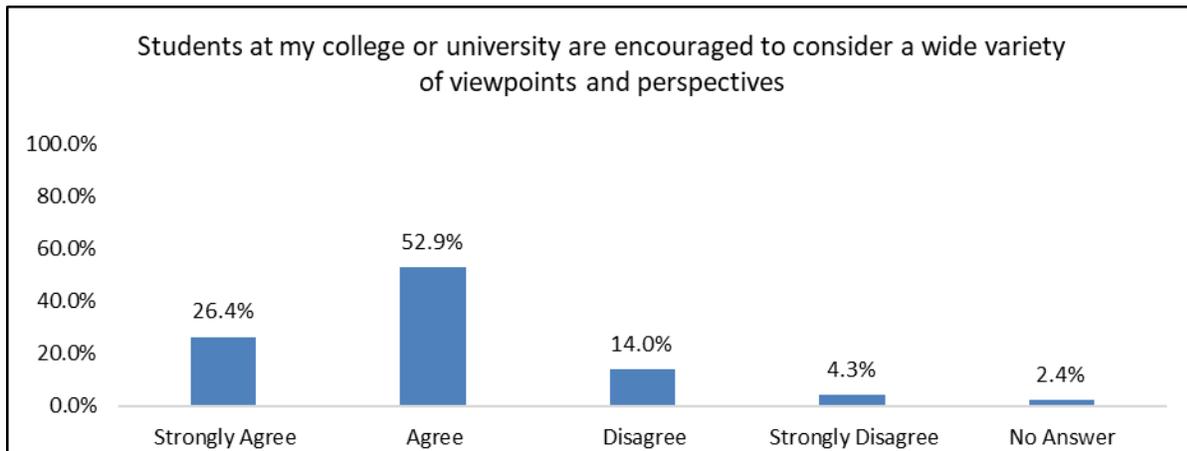

Figure 3.10. Question 10 Student Responses (n = 10,266)

Figure 3.11 shows student responses (n = 10,266) to the question, “I feel comfortable speaking up and giving my views on non-controversial topics.” Around 83% of students agreed that they feel comfortable giving their views on controversial topics. About 15% of students disagreed that they feel comfortable speaking up on noncontroversial topics. 1.7% decided not to answer.

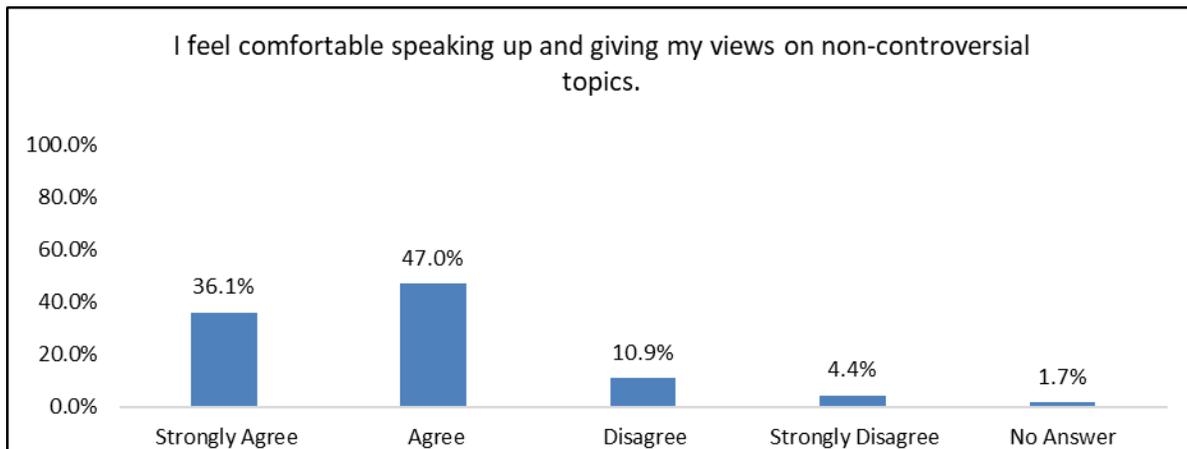

Figure 3.11. Question 11 Student Responses (n = 10,266)

Figure 3.12 shows student responses (n = 10,266) to the question, “I feel comfortable speaking up and giving my views on controversial topics.” 65% of students agreed they feel comfortable speaking up and giving views on controversial topics. Around 33% of students disagreed that they feel comfortable speaking up on controversial topics, while about 1.9% of students decided not to answer.

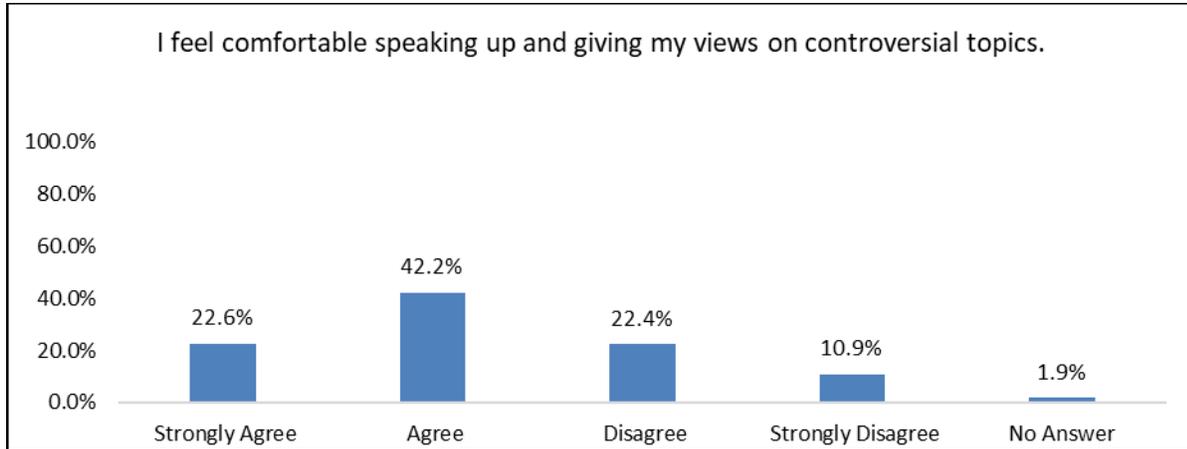

Figure 3.12. Question 12 Student Responses (n = 10,266)

Figure 3.13 shows student responses (n = 10,266) to the question, “On your campus, how often have you felt that you could not express your opinion on a subject because of how students, a professor, or the administration would respond?” 17% of respondents said they often felt that they could not express their opinions on a subject, while 58% said they rarely/never felt that. 2% decided not to provide a response to this question.
