Contents of FETPIP's Annual Outcomes Report

The Annual Outcomes Report provides a snapshot of outcome data from FETPIP's follow-up of students, participants and other groups who were involved in education, training, and other programs. Each report page is divided into seven primary sets of data types: Total Individuals, Total with Outcome Data, Florida Employment Data, Earnings by Level, Federal Employment Data, Florida Continuing Education Data, Receiving Public Assistance, and Florida Department of Corrections Data. The following notes describe the content of each of the major categories including several subcategories of data elements. The notes are keyed to alphanumeric identifiers on the sample report on the preceding page. Please note that data cells with small numbers have been suppressed and replaced by asterisks for confidentiality purposes, in compliance with s. 1008.39, F.S.

A) TOTAL INDIVIDUALS: The number of individuals with valid Social Security numbers as reported for follow-up to FETPIP.

Appendix A The FETPIP Process

The Florida Education and Training Placement Information Program (FETPIP), within the Division of Accountability, Research, and Measurement (ARM), is an interagency data collection system that obtains follow-up data on former students, program participants and other users of Florida's public education system. Authorized under current Florida Statute 1008.39, the program is designed to compile, maintain and disseminate employment, continuing education, military and other measures of information on these individuals. (The statute states that any project conducted by the Department of Education or the Workforce Development system requiring automated matching of administrative records for follow-up purposes, must use information provided through FETPIP). The programs and organizations for which FETPIP provides its follow-up data collection services are referred to as "applications".

These applications cover the K-20 system that includes all public school high school graduates and dropouts, all community college four year degree, associate degree and vocational students, all secondary and postsecondary vocational students, all state university system graduates, adult education and General Education Diploma (GED) students, a select number of private vocational schools, colleges and universities. Additionally, all Workforce Investment Act programs, Welfare Transition participants, Unemployment Insurance claimants, and smaller operations such as vocation rehabilitation, apprenticeship, certain longitudinal collections, and others are included as well.

The process begins when organizations representing each application provide FETPIP with individual student or participant files from their management information system units. The files include individual identifiers as well as demographic, socio-economic, and programmatic data. The data collected describe the employment, military service, incarceration, public assistance participation, and continuing education experience of the individuals being followed, and form an integral part of the K-20 accountability system used by public schools, vocational institutions, community colleges, and universities and other state agencies' consumer information systems. FETPIP accomplishes its data collection by electronically linking its student and participant files to the administrative records of the state and federal agencies listed below on an annual basis.

- **FLORIDA DEPARTMENT OF CORRECTIONS:** The data represent individuals incarcerated in the state's prisons or under Department of Corrections supervision.
- **FLORIDA DEPARTMENT OF EDUCATION:** The data include fall and preliminary winter enrollment records from four separate Management Information System units within the Department. The databases maintained by the State University System, Community Colleges, District Public Schools and the Office of Student Financial Aid (OSFA), form part of Florida's K-20 Information Accountability system.
- **THE FLORIDA DEPARTMENT OF CHILDREN AND FAMILIES:** The data include the amount of Temporary Assistance to Needy Families (TANF) and/or Food Stamp assistance received.
- **THE FLORIDA AGENCY FOR WORKFORCE INNOVATION:** The data include the employer's name, address, and North American Industry Classification System (NAICS) code, the total number of employees in that establishment for the reporting period, and their reported earnings for the period. The files that are accessed here are a part of the wage report system that is used to manage the state Unemployment Compensation program. These wage records are taken from the fourth quarter (October - December) employer payrolls from throughout Florida.
- **THE U.S. DEPARTMENT OF DEFENSE:** The data include the person's rank, and primary Defense Occupation Code.
- **THE U.S. OFFICE OF PERSONNEL MANAGEMENT:** The data indicate former students/trainees in the employ of the federal government. Data include branch of government and location.
- **THE U.S. POSTAL SERVICE:** The data indicate former students/trainees in the employ of the United States Postal Service.

Once data are collected and reviewed, a variety of reports and files are provided to the organizations represented by the applications. A more detailed account of reporting procedures and data availability can be found on the FETPIP website.
