Key Definitions

- Continuing Student – a participant who is not considered exited.
- Exiter – A reportable individual/participant who has not received services for a specific amount of time, has exited from adult general education program, and has no additional services scheduled. A reportable individual must be considered “exited” when 90 days have elapsed since the last date of service, no future services are planned, and the individual has had 90 days of no services, including self-service and information-only service, since being identified as a reportable individual.
- Integrated Education and Training (IET) - a service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement.
- Measurable Skill Gain (MSG): Federal unit of measurement of outcomes/success for WIOA funded adult education students. There are five possible MSGs for adult education students.
 1. Educational Functioning Level Gain
 - a) Educational functioning level gain as measured by a pre-test and post-test level gain.
 - b) Adult high school programs that lead to a secondary school diploma or its recognized equivalent may measure and report educational gain through the awarding of enough credits or Carnegie units to move from an EFL of 5 to an EFL of 6.
 - c) Educational functioning level gain for participants who enroll in postsecondary education and training during the program year.
 - d) Educational functioning level for participants who pass a subtest on a state-recognized high school equivalency examination.
 2. Documented attainment of a secondary school diploma or its recognized equivalent.
 3. Secondary or postsecondary transcript or report card for sufficient credit hours that shows a participant is meeting the state unit’s academic standards (IET participants and Workplace Literacy participants, only).
 4. Satisfactory or better progress report, toward established milestones (IET participants and Workplace Literacy participants, only).
 5. Successfully passing an exam that is required for a particular occupation or progress in attaining technical or occupational skills, as evidenced by trade-related benchmarks such as knowledge-based exams (IET and Workplace Literacy participants, only).
- Participant- a reportable individual who has completed at least 12 contact hours.
- Period of participation (POP) - For all indicators, except measurable skill gains, a period of participation refers to the period of time beginning when an individual becomes a participant and ending on the participant’s date of exit from the program. Each participant’s exit during the same program year must be counted as a separate period of participation for purposes of calculating levels of performance. For all indicators, except the measurable skill gains indicator, a new period of participation is counted each time a participant re-enters and exits the program—even if both exits occur during the same program year.

2023-24 Statewide and Agency Level Files

Statewide and agency level reports that reflect all NRS tables including the SPR, and MSG should be populated with data calculated using the below business rules, provided to each agency, and published on the DCAE website. A list of NRS eligible agencies to be included in the statewide counts for NRS submission is provided.

Reports

1. NRS Tables, SPR, and MSG - State Level Totals (used for NRS reporting)
2. NRS Tables, SPR, and MSG – Aggregated by Agency Type - District, FCS, and CBO
3. NRS Tables, SPR, and MSG –Agency level file for each NRS eligible agency
4. Periods of Participation Student Level File- See section titled “[Suggested File Flags](#)”
5. Tables 1, 4, 4b, 5, and 10- Student level files- These should be distributed to agencies in addition to agency level files.

Note: Reports 1-4 should be created and shared with DCAE prior to the October 1 Reporting Deadline.

2023-24 Student Level Files

A student level file by period of participation must be created to identify adult education students flagged by reportable features as required for Tables 4, 4C, 5, 5A 9, 10 and 11. See [Student Level File by Period of Participation](#) section for required file flags, flag calculation rules, and a suggested file layout.

Additional sources of data, including GED® test records and employment and placement data (FETPIP), are identified by FDOE through a data matching process directly with the source of that data.

NRS Tables & Business Rules

Table 1: Participants by Entering Educational Functioning Level, Ethnicity and Sex

Cohort: To be a participant, an adult general education student must have been reported with a minimum of at least 12 total instructional hours (10 instructional hours and 2 hours for intake and testing not reported as instructional hours) in an NRS eligible program during at least one period of participation in the reporting year, and must have a correctly reported FLEID, birth date, race/ethnicity and sex. Students reported with more than one education functioning level (EFL) during the reporting year are included in the cohort with the lowest initial functioning level reported for that student. Students reported with more than one sex, or more than one race/ethnicity should be included with the most recent reported value during the reporting period.

Business Rules

Note: Please produce two separate tables, 5 and 5a. These two tables look the same, however, Table 5A is for distance education students, **only**. Distance education students are also included in Table 5.

Exit: The exit date is the last date of service. The last day of service cannot be determined until at least 90 days have elapsed since the participant last received services. All participant records must be searched 90 days after their last course enrollment to determine if an exit occurred. The 90-day search is not limited to the program year like gains are. If an exit is determined, the exit date is retroactively set to that last date of course enrollment. Exit dates are determined using the last date of course/program enrollment after at least 90 days have elapsed without another course/program enrollment.

Student Level File by Period of Participation

Required for Tables 4, 4C, 5, 5A 9, 10 and 11

Identification of Each Student’s Periods of Participation

1. Includes all students from Table 1
2. A Period of Participation is based on students who are continuously enrolled with a **gap of more than eighty-nine days** between a course exit and the next course entry.
 - a. Student must have a minimum of 10 instructional hours for each period of participation
3. Using course entry and exit dates for the reporting year, determine whether a student has multiple periods of participation.
 - a. To evaluate for multiple periods of participation, PERA will use the earliest course entry date per term and latest course exit date per term, to look for 90 days between terms. The following chart provides an example of how POPs should be determined for multiple course entries/exits and terms.

Survey/Term	Course A Entry	Course A Exit	Course B Entry	Course B exit	Term Course Entry	Term Course Exit
F/1	7/1/23	7/30/23	7/15/23	8/4/23	7/1/23	8/4/23
W/2	8/10/23	12/10/23	8/12/23	9/30/23	8/10/23	12/10/23
S/3	3/15/24	6/1/24	4/1/24	6/1/24	3/15/24	6/1/24

- b. Based on the chart above, PERA would look between each term course exit date and the next term course entry date to determine 90 days or more had occurred. If more than 90 days had occurred a new period of participation would begin. For example, between the latest course exit for Survey 1 (8/4/23) and the first course entry for Survey 2 (8/10/23), there were only 6 days, so the first period of participation continues. Between the last course exit for Survey 2 (12/10/23) and the earliest course entry for Survey 3 (3/15/24), there was a gap of **more than eighty-nine days** so a new period of participation would be counted.
4. Each period of participation would create a new record in the student level file.

Identification of Key Variables for each Periods of Participation (See below for suggested file layout)

1. Program
 - a. Indicate which adult education program the student was enrolled in as indicated by their lowest functioning level (ABE, AHS, ASB, GED, ESOL, or ELCATE).
